TECHNICAL SKILLS

4+ years in the data analytics industry

Expertise in creating interactive prototypes using Adobe XD, Sketch and Figma

Expertise in front end development (HTML5, CSS, JavaScript, PHP)

Database design and programming experience with MySQL

EDUCATION

MASTERS OF ARTS

APPLIED PSYCHOLOGY

Adler University
Vancouver, Canada (Graduating 2022)

BACHELOR OF SCIENCE

INTERACTIVE ARTS AND TECHNOLOGY

Simon Fraser University
Vancouver, Canada (Graduated)

NON-TECHNICAL SKILLS

9+ years teaching math and sciences 4-12

4+ years event design supervisor

Working proficiency in 5 languages

Competency in problem solving, simplifying complexity, pattern recognition, strategic and analytical thinking, verbal, written and visual communication

PROFESSIONAL BACKGROUND

INTERMEDIATE USER EXPERIENCE DESIGNER

<https://theinikai.com/visier.html>

VISIER INC. VANCOUVER MAR 2019- PRESENT

- Leverage market and user research results to propose **simple, innovative and creative solutions to complex problems**.
- **Lead designer for multiple parallel projects** including data import, export and data manipulation on the Visier platform. Responsible for conceptualization, elaboration, refinement, implementation support, testing and polishing of features.
- Initiate and encourage **cross-team conversation and collaboration** in order to work in better harmony and deliver value.

USER EXPERIENCE DEVELOPER

<https://theinikai.com/sap.html>

SAP VANCOUVER JAN 2018 - MAR 2019

- Lead designer for three features of **customer engagement portal** enabling customization, personalization and dynamic content creation.
- Lead designer for the **mobile platform experience** and visuals for this tool.
- Conducted user **research activities** such as card sorting for information architecture, qualitative interviews for content management and task based testing for interface design
- Using the existing SAP **JavaScript frameworks and design guidelines**, I contributed to the **recreation of dashboards** for internal employees enabling them to create and analyze user feedback. My main role was user research, harmonizing task flows and interaction design.
- Improved **design processes, data driven decision making** and user centric design. Created user personas including real contact lists to involve in feature design and development, research work flows and design processes.

USER EXPERIENCE DEVELOPER

<https://theinikai.com/primagate.html>

STARTUP CO-FOUNDER: PRIMAGATE HOME AUTOMATION AUG 2014 - DEC 2015

- Created and maintained a **design guideline library** with collaboration with back-end **developers** and hardware **engineers**.
- Created and **analyzed user surveys** and user research data to iterate and redesign UI structures.
- Created and followed a **detailed schedule** for the design, development and user testing of the project.
- Used HTML, CSS and Framework7 to **develop the user interface** of the application.
- Used AngularJS, JavaScript, PHP, MySQL and REST APIs to communicate user inputs and interactions with the servers.
- Created weekly high fidelity wireframes and interactive prototypes to communicate ideas and design with the team.

Multifaceted User Experience Designer and Developer

ACADEMIC PROJECTS

BEN&JERRYS - BUSINESS STRATEGY/USER EXPERIENCE

<http://theinikai.com/benjerrys.html>

WEBSITE, INTERACTIVE OBJECTS AND ENVIRONMENTS COURSE, 2016

A redesigned immersive web experience and new **native e-commerce platform** for Ben & Jerry's. My role was finding key insights and gaps for **intervention within the business model and user journey framework**. Working closely within a team of five other designers, I facilitated iteration through various experience design models and created high fidelity prototypes of the interface. I created a visual guide for the interface to assure the **branding** of Ben & Jerry's is conserved.

MAISON BIRKS - STRATEGY/USER INTERFACE

<http://theinikai.com/birks.html>

WEB AND MOBILE SITE, INTERACTIVE OBJECTS AND ENVIRONMENTS COURSE, 2016

A redesigned web and **shopping experience featuring social selling** for back-end, affluent millennials in order for them to connect with Birk's brand and product values. The end goal is to increased perceived value of Birks' brand/products and establish a more sustainable market for the future, such that Birks is not left behind during the jewellery industry's **massive market shift**. My role was industry research, UI/Web design, visual design and communication.

SUBSCRIPTLY - USER INTERFACE DESIGN/PROTOTYPING

<http://theinikai.com/subscriptly.html>

WEB APPLICATION, INTERFACE DESIGN COURSE, 2015

A **web service to track subscriptions** by tracking credit cards, stay alert to deadlines, and get a clear view of their overall spending. I lead the ideation process and worked closely with my team to conduct user research, design user flows and create interactive prototypes.

COMMUNITY INVOLVEMENT

COMMUNICATIONS LEAD

SAP INTERN COMMITTEE MAR 2018 - MAR 2019

- Organized and presented informative workshops on UX/UI design and other topics. Designed, produced and published intern newsletter on a consistent timely basis
- Provided graphics and communication support for other intern community events. Used Mailwave to track and improve success of newsletters and marketing emails

MATHEMATICS INSTRUCTOR

ACADEMIC HORIZONS JAN 2017 - DEC 2017

Helped students understand how their "use of time" and levels of organization or disorganization impact their academic learning and achieving. Guided students to become responsible, reflective, independent life-long learners. Held individualized lessons for mathematics 4-12, precalculus and university math courses.

RECOMMENDATIONS

KERN PEGG @ SAP

HEAD OF PID TECHNICAL EXECUTION VANCOUVER, ENTERPRISE ANALYTICS

"I have been mentoring Nika over the past 5+ months, while she has been interning at SAP. She is an engaging, intelligent and gifted student, who demonstrates a keen eye for UI/UX. She is well prepared, engaged, curious and actively seeks ways to improve herself and gain insights and advice from her mentors. In addition to continuing to develop her skills, taking full advantage of the many intern offerings here at SAP, she has used her experience and analysis skills to provide meaningful, actionable suggestions to peers and leaders, passionate about improving, shaping and innovating our product offerings. I am confident that she will be an exceptional team member and contributor to any group she joins, encouraging and helping others to re-think and innovate better experiences for customers and users."

ROBERT WOODBURY

UNIVERSITY PROFESSOR - BUSINESS OF DESIGN PROGRAM

"Nika did very well in a pair of courses in the Business of Design program this summer (2018). Her group took on a tricky challenge and managed to make a business that adds real value to customers (science organizations) and end users. They used a variety of tools and a LOT of conversation to make real and tangible explanations of science. Nika brought her team together, and pushed them to think more deeply. I very much appreciated Nika's enthusiasm for and ability in elegant argumentation -- that is a real gift."
